RE: Proposed Maven Federal Credit Union

Thank you for your interest in chartering a federal credit union. We reviewed your request for approval of a preliminary field of membership for the proposed Maven Federal Credit Union. We have preliminarily approved an associational common bond field of membership for the proposed credit union to read as follows:

"Employees and members of the Government Blockchain Association who qualify for membership in accordance with its charter and bylaws in effect on 15 May 2020."

If you agree with the wording of your proposed credit union's field of membership, you can move forward with developing the remainder of your charter application.
